

CURRICULUM VITAE [Abridged]

BRIAN ANDREW STATHAM

NATIONALITY: South African
RESIDENCE: Johannesburg, South Africa

CURRENT ROLES:

Chairman – South African National Energy Association
Founder – Brian Statham and Associates
Honorary Officer – World Energy Council

EXPERIENCE:

Brian has some 40 years of experience in energy and has been involved in construction [coal, hydro and nuclear], operations, research, production planning, investment planning, project development [coal, hydro, LNG, natural gas, nuclear] and strategic planning, predominantly in the area of power generation.

Brian retired from Eskom in April 2014 but has retained his interest in energy matters and is the founder of **Brian Statham and Associates** a multi-faceted consulting organisation in the energy sector. Brian has a particular interest in assisting managers, and especially women, transition to executive and board level roles.

He has served on a number of governmental task forces and committees dealing with energy matters, including a two year term as a member of the Ministerial Advisory Council on Energy from February 2015.

Since 1999 Brian has also been actively involved in the work of the South African National Energy Association [SANEA] and the World Energy Council [WEC]. He served as Secretary-General of SANEA from 2000 to 2006 and in 2007 he was appointed as Chairman; a role he still fulfils today.

Brian served two terms as an Officer [Trustee] of the World Energy Council, Chairman of its Studies Committee and a member of its Communications, Finance, Programme and Remuneration Committees – 2010 – 2016. At the 2016 Executive Assembly Brian was elected as an Honorary Officer of the World Energy Council.

PAST HIGHLIGHTS

He served 2 terms on the Minister of Environment Advisory Committee on Air Pollution during the period 1987 – 1992.

He chaired the 2007 WEC Global Study on “Energy Policy Scenarios to 2050

Between June 2010 and March 2014, Brian was Chairman of Energy Access Partnership, a “not for profit company” accelerating energy access in Africa. Members of the partnership were Energy Services Alliance of Manitoba [Canada], Eskom, SANEA [South Africa], Swedfund, Vattenfall [Sweden], World Business Council for Sustainable Development [USA]
