

ROBERT ASHDOWN

robert_ashdown@swissre.com

Ph +27 739 636 285 (m)

Robert specialises in understanding and transferring risk for sovereigns, utilities, Independent Power Producers and financial institutions within the energy sector that will enable them to grow and improve the competitiveness of projects and enabling sovereigns to improve their liquidity position within the energy sector.

For almost 10 years, both in Africa and abroad, he has been active in the energy sector within various roles such as development, project management, corporate finance (mergers & acquisitions), fund development and implementation, policy and consulting. His experience spans Climate Change, renewable (wind, solar PV and CSP, Hydro and biomass) and non-renewable (coal, gas, hydro) energy assets and portfolios.

Robert has worked at PwC, at a boutique corporate finance house, the World Bank Group, an Independent Power Producer and currently at Swiss Re Corporate Solutions as a Senior Originator: Energy. In this role, he covers the energy sector, both upstream and generation for Sub-Saharan Africa, North Africa, Middle East.
