

Alfred Hartzenburg
National Project Manager - Industrial Energy Efficiency Project
National Cleaner Production Centre of SA

Alf joined the Project in 2011 and profound early outcomes lead to its extension to 2020. The Project has to date reported 4.1 Terawatt hour savings.

Alf is a Certified Energy Manager and Measurement & Verification Professional with Diplomas in Business Administration, Operations and Financial Management. He is a Eurem and UNIDO energy efficiency specialist and trainer in energy management, steam, fans, electric motors and compressed air systems optimisation.

Alf regularly conducts energy system optimisation assessments and facilitates energy management system implementations in industrial plants in South Africa and abroad.

Alf serves on the IEA Digital Energy Management Systems Experts Panel and as a Special Advisor to the Parliamentary Portfolio Committee on Energy. In 2016 he received the Energy Efficiency Patron award from the Southern African Association for Energy Efficiency (SAEE) for his contribution to energy efficiency in South Africa.
