

Johan Pieterse

Associate Director

Deloitte South Africa

Johan currently work as an Associate Director in Deloitte South Africa's Risk Advisory practice. His focus is on propositions and delivery of Strategic Risk Transformation projects for clients across FSI, Power& Utilities, TMT, Mining, Health Care and Public Sector. Their main driver is to position risk management and governance as a strategic enabler in achieving an organisation's strategic plans and performance objectives.

He describes himself as a Lean Six Sigma/ Prince2 project manager and transformation specialist with 10+ years' experience delivering a range of projects across front, middle and back office. He has a proven track record in managing and delivery of complex, large risk and change management projects. He also has good experience in leading cross functional teams through all phases of the delivery life cycle.
